

Item SP567 is "*Special.*" Sold in the Store, but Not Sold Online It's On Magento Now, and I Need to Take It Off Magento (But Keep It In CounterPoint)

Example: magnetic lamination pouches or impulse candy at the register.

This is different than *In-Store Exclusive* items which *are online* but as BOPIS-only.

Do NOT use this process to discontinue TBD/TBD50 items!

This process is for items that will *remain STOCK status* in CounterPoint

These steps can be done through Data Interchange, but **each SAVE point MUST be its own Import** (shown in light grey)
